Summary

I am an IT student specializing in front-end web development, UI/UX design, and data analytics. I aim to build a career in the technology field by combining design thinking and data-driven approaches to create impactful and user-centered digital solutions. Experienced in leveraging data for performance monitoring and decision-making, with strong soft skills in teamwork, leadership, and public speaking. I am eager to contribute to innovative projects and continuously grow in a dynamic environment.

Education

Bachelor of Computer Science (Information Technology)

Universitas Bumigora, Mataram — Graduation: Oct 2025 with GPA 3.81
