PROFESSIONAL SUMMARY

Analytical and business-oriented IT graduate with experience in operational governance, performance reporting, and data-driven decision support. Proven ability to coordinate across teams and translate data insights into actionable strategies. Seeking a Management Trainee or Data/Business role to develop leadership capability while driving organizational performance

EXPERIENCE

Operation Support – PT. BNI Life Insurance

Des 2025 – Present

- Support regional operational governance by ensuring asset control, documentation accuracy, and compliance with company policies and SLA standards.
- Coordinate cross-functional activities between sales force, marketing, and Head Office to maintain operational efficiency.
- Oversee asset lifecycle management (distribution, tracking, return, and maintenance) for regional sales representatives (BAS).
- Prepare monthly operational reports and support quarterly regional performance evaluations through structured data compilation and administrative control

Digital Representative – PT Pegadaian

Apr 2025 – Oct 2025

- Increased customer digital adoption by 90% through structured user onboarding and product education.
- Delivered customer service support and promoted Pegadaian's digital platforms.
- Created daily activation and transaction reports using Excel and handled administrative documentation.

IT Support Intern – BBPOM Mataram

Jul 2024 – Aug 2024

- Developed and maintained the internal Data Center Website using HTML, CSS, and JavaScript.
- Improved user experience through UI/UX refinement and responsive design implementation.
- Supported troubleshooting, hardware/software maintenance, and system performance monitoring.

Data Analytics & Web Development Trainee – RevoU (MSIB Batch 6)

Feb 2024 – Jul 2024

- Completed specialization in data analytics, AI, and web development with GPA 92.
- Served as PIC for Front-End Engineering Division, coordinating tasks and assisting team operations.
- Developed dashboards, performed data analysis, and presented insights to stakeholders.
